

# NICHOLS BROS. STONEWORKS™

Thank you for your interest in our company and our products. For almost 20 years Nichols Bros. Stoneworks has been manufacturing the highest quality reconstituted stone planters, garden ornaments and site furnishings in classic European and contemporary designs. In 1998 we were granted the license to be the exclusive manufacturer of the Frank Lloyd Wright Collection® of stone vases and garden ornaments. Our products offer exceptional, old world style, quality of material and design at domestic prices. Our craftsmen hand cast each piece of stoneware at our facility north of Seattle.

In Europe, dry cast stone has been around for centuries and had proven to be a quality, durable and most attractive alternative to other materials such as terra cotta, clay, and fiberglass or plastic. The nature of our stone gives it a number of advantages for use in garden and architectural applications, such as its propensity to age and patina like natural stone. The materials ability to be cast into virtually any shape and still reveal extraordinary detail allows our skilled mold makers and production craftsmen enormous design possibilities.

Two decades of experience have also enabled us to experiment with and improve our mix designs and curing methods to give our stone greatly increased strength, weather tolerance and resistance to abrasion. We also reinforce our larger planters with galvanized aircraft cable to prevent cracking. These enhancements allow us to offer a 10-year warranty against product failure.

Our wide range of products is available in 5 standard colors, Limestone, Cream, Tan, Terra Cotta and Pewter. Items on the following pages are shown in these various colors. If color samples are desired please contact us and we will send them. Custom colors and color matching are also available for a 20% upcharge.

With our in house mold shop we are constantly working on new models and sizes, and have the ability to create custom pieces on an individual quote basis.

All of our items are securely crated on site to insure damage free delivery anywhere in North America.

Please enjoy this opportunity to view the enclosed information, and feel free to give us a call or e-mail with any questions you may have. The whole team at Nichols Bros. Stoneworks looks forward to serving you with your stone garden ornament needs.

Sincerely,

D.R. Hendel  
Nichols Bros. Stoneworks
